# Your opinion

**At Cobalt we are fully committed to ensuring that people of all cultures have the opportunity to have an input into the community we live in. It is therefore important to us that we get feedback from all the different groups which exist in the Cobalt area.**

## **We want to hear from you on the issues which affect you and your community**

We have a Resident Involvement team which is dedicated to helping and supporting groups or individuals who want to get involved. Our aim is to provide you with a platform for you to have a say on your home and the environment you live in.

## **We have a whole range of ways in which you can get involved**

### **These include:**

- Giving feedback via postal surveys
- Making sure Cobalt literature can be easily understood by everyone in the community
- Attending meetings with other interested members of your community
- Giving your views on specific topics which affect you.

**For more information on how to get involved please contact**

# matters

**However much you choose to get involved we will support you to make it possible.**

**We aim to make sure that everybody is given an equal chance to become involved. We will explain our services in different languages and provide information as an audio version, large print or Braille.**

We will pay for travel expenses and caring costs for a registered carer or childminder if required. The venue we use will be wheelchair accessible.

We will also pay for interpreters to attend meetings with you if you need them.

If you have contacts with other people in your community we would welcome their input as well.
